

KS2 Sports for All Festival

On Wednesday 4th October 2023, a selection of children attended a sports event at Newton Abbot College. The event allowed the children to take part in a rotation of activities to help 'Develop character and life skills (building resilience, determination), Develop fundamental skills (Locomotor, Stability, Manipulative) and Develop and improve physical fitness'. The group of children worked well in their groups with other children from local schools and had a go at running against some of the Newton Abbot College Sports Leaders at the end of the session. Well done to all involved!
